EXPERIENCE

Full Stack Developer

Monky Shine · Part Time

⌚ April 2023 – Ongoing

📍 Aalborg

Develop and maintain the company's booking application using Angular and .NET Core. I have implemented new features, improved existing functionality and contributed to the integration of Nets payment to streamline transactions and enhance user experience.

C# | .NET Core | Angular | TypeScript | MSSQL | SCSS

Game Developer

EmptyBox · Internship

⌚ January 2023 – April 2023

📍 Aalborg

Worked on migrating an unreleased project to Unity DOTS, improving performance and scalability. Developed core systems for the project, including a 2D animation system for Unity DOTS, and a fast-travel system.

Unity | C# | Unity DOTS

Software Developer

OleSoft · Internship

⌚ August 2020 – October 2020

📍 Debrecen

Contributed to a web application that digitized the process of trash container rentals, significantly reducing manual paperwork and improving efficiency.

React | TypeScript | Node.js

PROJECTS

StarCraft II Intelligent Agent

Master's Project

Developed an intelligent agent capable of playing StarCraft II. The agent utilized Monte-Carlo Tree Search for Action selection and Neural Networks to analyze the state of the game.

Python | C++

Graphite - A Custom Language for Graph Manipulation

University Project

Designed and implemented Graphite, a custom object-oriented programming language focused on simplifying graph manipulation with specialized operations and enabling graph visualization through DOT integration.

C# | DOT | Graphviz

Player Programmable Behaviours

Bachelor's Project

Developed a system which allows developers to expose the code of objects, allowing players to interactively modify in-game behaviour through a custom C-like scripting language.

C# | Unity

WHO AM I?

Newly graduated software developer looking for new challenges and opportunities to learn and grow professionally. I enjoy learning new technologies by solving problems and working on projects, be it personal or professional. Outside of work, I use my skills to develop games and build tools for my hobbies.

SKILLS

Programming

Advanced: C#, Python, TypeScript
Intermediate: Java, T-SQL
Beginner: C++, Go

Frameworks & Tools

.NET, Git, Unity

LANGUAGES

Hungarian
